

Coast Defense Is Ready for Carla's Winds

NEW ORLEANS (AP) — The Louisiana and Texas coasts, an 800-mile strip from New Orleans to the Mexican border, buttressed their defenses today for the first of Hurricane Carla's 125-mile an hour winds.

The Weather Bureau in New Orleans, in its 1 a.m. bulletin, said the storm was about 400 miles south of New Orleans in the Gulf of Mexico. It plowed along at about nine miles per hour in a west northwest direction.

There was still no definite indication where the "large and dangerous" storm might move inland. It maintained its curve westward during the night.

hundreds in the Louisiana coastal marsh country heeded the Weather Bureau's note of caution to evacuate the lowlands and seek higher ground.

In Cameron, La., devastated by Hurricane Audrey in 1957 with more than 500 killed, only a hardy handful—police estimated less than 25—of the town's 5,000 population remained. All stores and business were boarded up.

Police guarded all roads into Cameron, perched atop a ridge about 30 miles south of Lake Charles, La., and only 40 miles from the Texas state line.

Carla pushed tides two to three feet higher than normal toward the mainland and the Weather Bureau said hurricane warnings would supplant the hurricane watch from the Mississippi River along the entire Texas coast sometime today.

There were no reports of distress in any of the southwest Louisiana parishes, but evacuation centers were set up at Lake Charles high schools—one white and one Negro—to handle those seeking refuge.

Oil and gas operations in the rich Gulf tidelands off the coasts of both states came to a stop Friday night as Carla approached. Oil companies took workers and equipment from the big rigs and few stayed on duty at the drilling stations.

In Lake Charles, 30 miles above the Louisiana coastline, there was little to indicate a killer storm lay out in the Gulf.

Breezes were calm Friday night and there was no rain. A big crowd turned out for a high school game, played across the street from the gymnasium evacuation center.

Pearl aruse at Crowley, self-styled rice capital of the world, for a \$5-million rice crop only three weeks from harvest. Observers said winds of 40 miles per hour—much less hurricane force winds—would destroy the crop.

Louisiana Agriculture Commissioner Dave Pearce said the storm could wreck the state's cane and corn crops, both near harvest, if moved far enough inland.

Wants Raise in Price of Poultry

GAINESVILLE, Gas. (AP) — Georgia poultrymen and state Agriculture Commissioner Phil Campbell have moved to raise prices through an industry production control program.

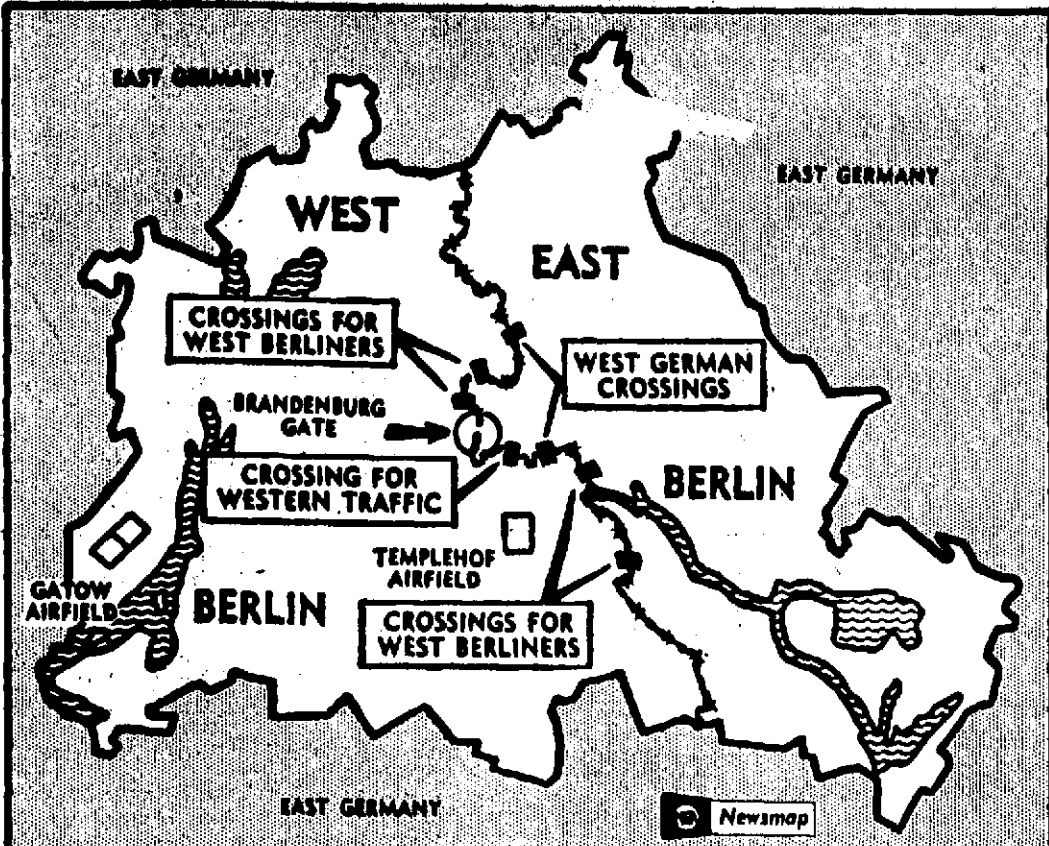

The Georgia Poultry Federation voted about 3 to 1 Thursday night in favor of such a program to protect against market price glut.

The action by nearly 400 industry representatives called for self-imposed regulations with the U.S. Department of Agriculture serving as the policing agency.

Shortly after the vote Campbell called a South-wide meeting of state poultry leaders and agriculturalists.

He said "we believe we have a solution to the poultry price problem in the form of an industry control program, and we are exploring every avenue leading in this direction."

Weather
Arkansas — Widely scattered
rain and evening thunder-
showers through tomorrow.

CUTTING OFF THE CIRCULATION—Newsmap shows the only East-West land crossings still open for travelers between East and West sector of divided Berlin as result of new Red travel curbs.

Evacuation in Louisiana Widespread

NEW ORLEANS (AP)—Residents of low-lying areas along the Louisiana coast began evacuating their homes today as Hurricane Carla—its winds increased to 125 miles an hour—howled up the Gulf of Mexico.

The New Orleans Weather Bureau, in a 10 a.m. advisory, said Carla—the season's third storm—has become a major hurricane.

Carla's course veered during the early morning and it is now headed in a northwesterly direction. At 10 a.m. the center of the hurricane was about 460 statute miles south of New Orleans.

The Weather Bureau said Carla would continue on its northwest movement at about 10 m.p.h. for the next 12-18 hours.

The hurricane watch was extended to include the entire Texas coast and now is in effect from Brownsville, Tex., to Apalachicola, Fla.

Police at Morgan City, La., 50 miles southwest of New Orleans, ordered evacuation of all areas outside the city, which is completely sealed by levees.

No immediate evacuation plans were issued for Cameron Parish where over 500 persons died in 1957's hurricane Audrey. Cameron's low lands lie next to the Texas border.

Residents of Grand Isle, La., some 40 miles south of New Orleans on the Gulf began making preparations to evacuate. The low lying island is flooded during abnormally high tide.

"The high tide early today flooded parts of the highway," said Grand Isle Town Marshal Frank Bradberry in a telephone interview. "I expect we will get an evacuation order later today."

In New Orleans, brisk winds kicked up whitecaps on Lake Pontchartrain, and police began sealing off low roads surrounding the lake.

Red Cross centers throughout the upper Gulf Coast began planning for possible disasters.

The Weather Bureau said winds will gradually increase along the northern Gulf Coast today, reaching gale force along the Louisiana Coast tonight.

Small craft all around the Gulf Coast were kept in port as Carla churned up the waters of this entire 1,000-mile wide sea.

Two other storms besides Carla spun over the tropical weather Continued on Page Two

**Precautions Against
Infectious Disease**
LITTLE ROCK (AP)—The state Health Department today listed three precautions against infectious hepatitis, a liver disease, and noted that cases rate more than seven times greater than last year.

A total of 750 cases has been reported in Arkansas this year, 536 of them in persons under 20 years of age. At this time last year only 105 cases had been reported. Five new cases were reported last week and 12 the week before.

Outlook Good for the Major Crops

LITTLE ROCK (AP)—The outlook continues good for Arkansas' major crops—cotton, rice and soybeans—the Crop Reporting Service said today.

Early picking has started in some areas, the service said, but fruiting is beginning to cut out in some fields where moisture is short. The general outlook is good.

Blackbirds are damaging rice in some counties, but harvesting of early rice has started. Most of the harvest will come in mid-September, the report said.

Soybeans are fruiting heavily, although rain is needed in some areas.

Reds Bound to Break Up West Jeers

By GEORGE BOULTWOOD

BERLIN (AP)—Communist police showed increasing determination today to break up demonstrations by jeering West Berliners who gather close to the Red barricades. The Communists' rifle cracks, tear gas and water jets at hundreds of demonstrators on the West side of the border in three incidents during the night.

One crowd of about 80, demonstrating along the border in Neukölln in the American sector, was angered when the Reds threw a tear gas grenade which struck a newsstand and smashed a neon sign.

The crowd grew to about 200, including some drunks. The Communists attacked the demonstrators with a water cannon. West German police finally pushed the crowd back and arrested three of the demonstrators.

In the tough industrial district of Wedding in the French sector, the Communists hurled five tear gas grenades at a crowd of about 500 whistling, booing West Berliners. West Berlin police dispersed that crowd too.

The third incident also occurred in the Neukölln border area where the Communists used tear gas grenades and firecrackers and ran out fire hose in an effort to scatter several dozen persons on the Western side.

A controlled Communist East German student papers published an article telling East German students they must be prepared to shoot fellow Germans.

"There are good Germans and Continued on Page Two

**Kennedy Back to
Hyannis Port Home**
WASHINGTON (AP)—President Kennedy, for the 11th weekend in a row, will fly to his ocean-front home at Hyannis Port, Mass., this afternoon.

Kennedy plans to leave the White House at 4:45 p.m. by helicopter for Andrews Air Force Base in nearby Maryland.

He expects to return Monday morning.

White House press secretary Pierre Salinger said Mrs. Kennedy plans to spend another week at Hyannis Port but will return to the White House the following week.

Jack Paar Incident Under Probe

WASHINGTON (AP)—The Pentagon, with the approval of the White House, has launched an investigation of the U.S. Army's part in the staging of the Jack Paar TV show Thursday at a crossing between West and East Berlin.

The step was reported by the Washington Evening Star.

"If the newspaper reports are accurate, it was a disgraceful episode," said Arthur Sylvester, assistant secretary of defense for public affairs.

"If Army officers were responsible, they showed very poor judgment."

The incident took place at the Friedrichstrasse crossing between West and East Berlin.

In recent days this crossing had been manned by about a quad of GIs. But Thursday the Jack Paar TV cameras moved up, and so did two colonels, a captain, two lieutenants and about 50 enlisted men, some in bulletproof vests.

There were also seven jeeps, some with machine guns and one with the new recoilless rifle mounted on it. Four TV cameras were trained on the scene as a jeep with a machine gun was run right up to the border line.

Across the line, East German Reds, who have pictured the United States as the enemy, trained their own TV cameras on all the American brass and weapons.

Sylvester, making known that an investigation has been ordered, said the incident as reported was potentially dangerous and reflected poorly on the American Army.

He said he knew of no authorization for any Army participation in the Paar show. He could not say at this time what disciplinary action might be taken.

Pierre Salinger, White House press secretary, agreed with Sylvester on the need for an investigation.

In West Berlin, Col. John L. Dean, commander of the 2nd Battalion, 6th Infantry Division, explained that the troops patrolling the border were being changed and that accounted for the large number present.

**Disappearance of
Man Investigated**
HOT SPRINGS, Ark. (AP)—Sheriff Duffie Searcy said today his office is investigating the disappearance of a watchman and a burglar at the Hot Springs Country Club.

Searcy said he believes there may have been foul play involved in the disappearance of Charles Groves, 28, who stays at the club at night. Groves has not been seen since Wednesday night, Searcy said. About \$177 in cash and a .38 caliber pistol were taken during a burglary that night, but Searcy said there was no sign of a forcible entry.

**Base Hospital
Bill Advances**
WASHINGTON (AP)—Senate House conferees Thursday accepted a \$1.9 million appropriation recommendation for a hospital at Little Rock Air Force Base. It was one of two items they accepted out of four that were added to the military construction appropriation bill by the Senate.

West's Effort to Negotiate Unsuccessful

By JOHN M. HIGHTOWER
WASHINGTON (AP)—Western efforts to open up a basis for negotiation of a Berlin settlement with the Soviet Union were reported today to have been unsuccessful so far.

U.S. officials still expressed confidence, however, that exploration through diplomatic channels, including the American Embassy in Moscow and contacts at the United Nations, eventually will lead to negotiations between the Soviet Union and the Western powers.

Secretary of State Dean Rusk declared here Friday night that "we expect negotiations on Berlin as soon as it is apparent that negotiations of a serious and constructive character can occur."

But he said there is nothing in the "fine print" of Soviet Premier Khrushchev's statements on Berlin to "show the path to agreement."

Rusk warned the Soviet government against risking disaster by single-handed action against Allied interests in West Berlin. He also warned the Kremlin not to mistake the West's desire for peace as a willingness to yield to the Soviets' Berlin demand.

At the moment, Rusk said, the channels of communication available between Moscow and Western capitals "are not being neglected."

It is understood that U.S. Ambassador Llewellyn Thompson had a talk with Soviet Foreign Minister Andrei Gromyko in Moscow earlier this week.

Indications here were that Gromyko stuck to the same hard line on Berlin which Khrushchev has been stating publicly.

The Soviet Union's resumption of nuclear weapons testing, which the United States has denounced as "atomic blackmail," and Soviet diplomatic attacks on Allied use of the air corridors between Berlin and West Germany are regarded in official quarters here as discouraging.

Khrushchev said in Moscow Friday that he is ready for "businesslike talks" with President Kennedy on the Berlin issue. But officials said their efforts to find out what Khrushchev considers negotiable have shown only that he wants to negotiate away the position of the Western powers in Berlin.

Today is the deadline for Khrushchev to reply to the proposal made last Sunday by Kennedy and British Prime Minister Harold Macmillan for a ban on nuclear weapons tests in the atmosphere.

Khrushchev has indicated publicly that he considered the proposal a propaganda maneuver and reject it.

German Reds Ask Speedup by Workers

BERLIN (AP)—The Communist regime of East Germany today ordered workers to speed up production. They were told they will have to do more in the same time for the same pay.

Trade union officials in plants were instructed to get together with the workers to decide how this could be done, the controlled Communist press reported.

Although the regime continually talks about increasing production this was the first formal increase in norms ordered since the abortive revolt of 1953. That uprising was sparked off by a demonstration of East Berlin construction workers against higher norms without a pay increase.

Having caged in the restive population by closing the frontiers on Aug. 13, the Communist regime apparently feels secure enough to crack the whip and try to make up for the crippling loss of manpower caused by the flight of refugees to the West.

One young East German crashed his speeding station wagon through red barriers today and flashed through the Brandenburg Gate to freedom in West Berlin.

Negro Drowns
EARLE, Ark. (AP)—Douglas Edward Davis, a 13-year-old Earle Negro, drowned in a barrow pit three miles north of here Thursday, officers said. Deputy Sheriff Robert Warren said the youth was swimming with several other boys at the time. He was the son of Mr. and Mrs. John L. Davis of Earle.

If You Had the Chance Which Famous Person in History Would You Like to Meet?

By MARY ANITA LASETER
Star Feature Writer

When you read biographies about famous people, or simply news items about them, did you ever think, perhaps, you would like to have met them? Not only that, but you might have enjoyed really knowing them. Your imaginary friend could have been outstanding in one or more fields, but would be one whose name is familiar to others.

What would your choice be? The Inquiring Reporter asked this of several local people, and the resulting answers follow:

ROY ANDERSON said he thought he had met an outstanding person in Lloyd C. Douglas, the famous author. Others would certainly agree with a touch of envy of their friendship, which was formed while both were hotel guests in Hot Springs. "People I would like to have met would be headed by Abraham Lincoln because he had a 'Springhill philosophy of life' just like I do," Mr. Anderson added.

Another author, Shakespeare, was the choice of MRS. BRACK SCHENCK for a much different reason. "I'd like to solve the question of who the author really was, in my own mind at least." Some authorities say Francis Bacon, some Queen Elizabeth and others list other people as "the true Shakespeare," but Mrs. Schenck would like to know the answer as well as the author.

JOE KEESEY would have liked to have known Thomas A. Edison. He explained the reason in this way, "I've just visited Greenfield Village in Dearborn, Mich. Since it is a reproduction of Edison's Menlo Park, my interest and admiration of this genius has been reawakened and even increased."

Both MRS. JOHN S. GREENE and J. T. BOWDEN would have liked to have known Robert E. Lee. Mrs. Greene expressed "interest in his family and the type of person who could evoke admiration from both friend and enemy." Mr. Bowden called Lee a "scholar, an officer, a gentleman and above all, a Christian. He was the kind of man anyone would have liked to have known."

MRS. ELMER MURPH and JUDGE LYLE BROWN agreed on wanting to have known Abraham Lincoln, but for different reasons. Mrs. Murph said "I've always admired Lincoln above all the men in American history and would naturally choose him first." Judge Brown acknowledged Lincoln's brilliant mind developed under adverse circumstances, but he would have liked to have known him "because he was one of the greatest lawyers ever produced on the American scene, a fact sometimes overlooked in history."

Of those questioned only MRS. W. Y. FOSTER picked a female as the famous person she would like most to have known. "Jenny Lind, the Swedish Nightingale, is someone I wish I had known. The next best thing would have been to have heard her, but, unfortunately, she could not be like Caluso and have her voice recorded, so the famous voice was lost for posterity."

**Cotton Crop
Estimated 14
Million Bales**
WASHINGTON (AP)—The Agriculture Department today estimated this year's government-controlled cotton crop at 14,262,000 bales of 500 pounds gross weight.

This estimate is 344,000 bales more than last month's forecast of 13,918,000 bales. It compares with 14,272,000 produced last year and 13,553,000 for the 10-year (1950-59) average.

The crop is being grown under federal acreage allotments and marketing quotas designed to help prevent overproduction.

The crop will be supplemented by a reserve and surplus of 7,200,000 bales accumulated from past crops.

The department estimated the yield per harvested acre at 437 pounds compared with 446 last year and 362 for the 10-year average.

The acreage for harvest has been estimated at 15,652,000. In an accompanying report, the Census Bureau said 683,932 rural bales from this year's crop had been ginned prior to Sept. 1, Mr. and Mrs. John L. Davis of Earle.

Army Forces In Germany to Get 40,000 Men

By BARRY SCHWEID
WASHINGTON (AP)—The Pentagon may announce today the dispatch of perhaps 40,000 men overseas soon to reinforce Army forces in Germany.

This would be the latest step—and a sizable one—in the continuing buildup of U.S. forces in the light of the persistent Berlin crisis.

It would mean an increase of about 16 per cent in American military forces in Europe. The present total is about 250,000.

Sources said the reinforcements would start moving as soon as possible. The first wave may not be ready to cross the Atlantic until Oct. 1.

Some time ago, Gen. Lauris Norstad, supreme Allied commander in Europe, asked the Pentagon for 30,000 support-type troops to round out the Europe-based 7th Army.

Subsequently, on Aug. 11, the Army announced 3,000 troops would go to Europe. It was said at the time additional men would be trained to follow.

Gen. George H. Decker, Army chief of staff, disclosed Friday that 1,000 new men were being assigned to each of the three infantry divisions in Germany—the 3rd, 8th and 24th.

Decker told the Association of the United States Army that the added men would permit the 7th Army to maintain an additional number of armored personnel carriers.

The Army chief said the 3,000 men and the lightweight, amphibious, air-transportable troop carriers earmarked for Germany were already on their way. He did not say how many carriers were involved.

Behind this stepped-up mechanization is the knowledge that Soviet forces in Europe are highly mechanized.

**Thinks Sept.
Jobless
Turn Point**
SAN FRANCISCO (AP)—Secretary of the Treasury C. Douglas Dillon said today September will mark the turning point in the unemployment situation.

Dillon predicted that the percentage of workers unemployed will begin to decline and will be cut by more than a third by this time next year.

In an address for the Commonwealth Club of California, Dillon said: "Despite our recovery, unemployment has remained just under seven per cent—an intolerably high level. Indications are, however, that gradual improvement is about to begin, and we expect it to be reflected in September's employment figures."

Dillon said that if the economy grows as fast as he expects, unemployment "should fall to six per cent or less by Christmas and possibly to five per cent by the middle of 1962."

If all goes well, he added, unemployment should be approaching 4.5 per cent a year from now.

The Treasury chief said "the business outlook is decidedly promising" and the recovery movement rapid and widespread. "In fact, the fastest on record."

**Former Hope Man
Dies in Houston**
J. D. Hendrix, age 50, died Friday night in a Houston hospital. He was a former resident of Hope. Survivors include his wife, Rose Mary, his mother, Mrs. R. L. Hendrix, three brothers, Dewey of Little Rock, Jack and Jimmy of New York City and six sisters, Mrs. Jack Evans and Mrs. Hazel Adams of Jena, La., Mrs. George Brown of Texarkana, Mrs. Fred Minard of Urania, La., Mrs. Jennings Russell of Ashdown and Mrs. Perry Wayne of Chickasaw, Ala.

Funeral service are incomplete at this time.

**Venders to Hear
Secret Service Man**
LITTLE ROCK (AP)—Leroy M. Letcher, chief of the U.S. Secret Service office in Little Rock, will speak at the annual sales meeting of the Arkansas Association of Vending Stand Operators here Saturday at the Rehabilitation Center for the Blind. The vending stand program is sponsored by the Arkansas Enterprises for the Blind.

Pickets Beat Their Own Union Boss

PITTSBURGH (AP)—Striking pickets at the Fisher Body Plant of General Motors Corp. in suburban West Mifflin attacked and beat their own union president and a Detroit management representative Thursday night.

John McCarrell, president of United Auto Workers Local 544, was turned on when he tried to escort Charles Latham, general personnel director of the Fisher Body Division in Detroit, through the picket lines.

Two other unidentified union men were roughed up in the fracas. None of the men needed medical attention.

McCarrell said: "The pickets turned on me because they are still plenty angry about the West Mifflin plant manager hitting one of our boys with a car. I didn't realize the boys were that sore."

A warrant has been issued for the arrest of the plant manager, Fred Hughes. He is charged with aggravated assault with an automobile and failure to stop at a scene of an accident after allegedly running down John L. Jones, 37, of Connellsville R.D. 2 Thursday morning.

Jones was reported in fair condition at Connellsville state hospital.

The local union men walked off their jobs at the West Mifflin plant Wednesday morning despite the granting of a strike extension in Detroit. McCarrell says the local did not receive any word of the extension.

**Landis Named
in a Divorce,
Quits Post**
WASHINGTON (AP)—The White House has announced the resignation of James M. Landis, a presidential aide who was named as a co-respondent in a divorce suit.

The suit was filed Thursday, a few hours before Landis' resignation was announced. He had been a special assistant to President Kennedy on federal regulatory agencies.

The White House press secretary, Pierre Salinger, told newsmen it was purely coincidental the resignation announcement and divorce action came on the same day.

Landis, 61, former dean of the Harvard Law School, submitted his resignation Aug. 1. The White House noted that when he took the agencies assignment he said he wanted to serve only until June.

Kennedy accepted Landis' resignation Sept. 1 and praised his work. Salinger said the exchange of letters between Landis and the President had not reached him until Thursday.

The suit was filed by Joseph A. Todd, husband of Landis' secretary. Todd, 45, claimed that his wife, Pauline, 41, had been intimate with Landis and with other men.

Mrs. Todd denied the accusation through her attorney. Landis was not available for comment.

Mrs. Todd brought action against her husband Aug. 4, seeking maintenance support and custody of their four children. A hearing on this suit was held Thursday and Mrs. Todd was granted temporary custody of the children. The Todds are separate.

Mrs. Todd was employed as Landis' secretary while Landis served in the White House executive offices as a special adviser. She had been his secretary in the past.

Landis was divorced from his first wife in 1947. The next year he married Dorothy Brown, a divorcee who had been his assistant while he served on the Civil Aeronautics Board.

The Great Teacher once said, when the fig tree buds it is spring. We might add, when the youngsters go back to school, it is fall. What a challenge back-to-school brings. It is time to learn more about math, and science, and citizenship, and God. How necessary to our American way of life are these basic requirements in our educational system. Our curriculum must include some precepts of Jesus if we are to have sufficient moral and spiritual stamina to endure. It has been said, education without a knowledge of God is dangerous. Our teachers, our preachers, and all loyal Americans should see to it that our basic education be broad enough to include both the academic and God. Of course our youngsters should be loyal to their colors, to their school, but they should also be faithful subjects of the Great God. They should worship in church every week.

The Churches of This Community, Are the Only Institutions Which Have
as Their Main Function, the Transforming of Human Lives
They Are the Sign Boards Pointing the Way to God.

Sponsors of these messages urge faithful church support. Through this series of pages
the appeal is for all men to stand up and be counted . . . to combat
Communism on all front . . . to be faithful to God.

Our Ministers Are God's Servants Who Call the Signals Against the
Organized Forces of Evil. They Invite You to Enlist On
the Side For God. . . to Come to Church.

IF A MAN PRAYS RIGHT CAN HE LIVE WRONG
